Dear PAMAGIC Board:

The Pennsylvania Municipal Authorities Association (PMAA) mission is to assist authorities in providing services that protect and enhance the environment, promote economic vitality and the general welfare of the Commonwealth of Pennsylvania and its citizens.

PMAA strives to achieve this mission by the following: Promoting use of ethical and sound practices, providing training and education about established and innovative practices, providing information, services, publications and leadership in developing guidance on ways to address evolving service challenges.

With our aforementioned mission statement in mind, the PMAA Board has discussed PAMAGIC's Geospatial Coordination Strategic Plan for Pennsylvania at our November Board meeting and has agreed to endorse it. This Plan calls for the formation of a GIS Council, which we believe can utilize Pennsylvania's various geospatial resources and experience, and will provide competent leadership and decision-making in a collective manner.

Sincerely
